EXECUTIVE SUMMARY

Fresher React developer with hands-on live project experience in building responsive web interfaces using React, JavaScript, HTML, and CSS. Strong understanding of frontend fundamentals and eager to grow in a collaborative development environment.

EXPERIENCE

Web Developer Intern, *DatakalamIT Pvt Ltd*

- Worked as a Web Developer Intern, contributing to the design and development of responsive web applications using HTML, CSS, JavaScript, and React.js. Assisted in building user-friendly interfaces, implementing reusable components, and ensuring consistent design across pages.
- Collaborated with team members to integrate routing for seamless navigation, perform form validation, and improve overall application functionality. Gained hands-on experience in debugging, optimizing UI performance, and following best coding practices in a real-world development environment.

EDUCATION & CERTIFICATIONS

Master Program In Full Stack Development , <i>Fita Academy velachery</i>	04/2025 – 07/2025
Bachelor Of Computer Application (BCA) , <i>Hindustan College Of Arts & Science Padur</i>	08/2022 – 04/2025
HSLC , <i>Guru Nanak Matriculation Higher Secondary School velachery</i>	2021 – 2022

SKILLS

Languages

Python, Java, HTML, CSS, JavaScript

FrameWork

React.Js

DataBase

MySQL

Tools & Platforms

Git, GitHub, VsCode, Cursor, Eclipse

PROJECTS

KURAL குரல், *Home Management Web Application* 09/2025 – 11/2025

- This project was developed using React.js, JavaScript, HTML, CSS, and Material UI, with a primary focus on creating user-friendly and responsive layouts and designs. Routing functionality was implemented to enable seamless navigation across multiple pages.
- Each page was developed with proper form validation to ensure accurate user input and reliable data handling. The application was structured using reusable and modular components, improving code readability, maintainability, and scalability. Material UI components were effectively utilized to maintain design consistency and enhance the overall user experience.

Portfolio Website 04/2025 – 06/2025

- This project was developed using React.js as the core framework, with HTML, CSS, and JavaScript as the foundation. The application was structured using reusable and modular components to ensure better code maintainability and scalability. React Router was integrated to enable smooth and seamless navigation across multiple pages.
- The project includes forms with proper input validation and user-friendly message handling to ensure accurate data submission and improved user experience. A mobile-friendly and fully responsive user interface was implemented using clean and well-structured CSS, along with layout adjustments to support different screen sizes and devices.
